30%

January 1, 2003 By Suzy Martin

30% of the nation’s newly infected are injection drug–users. The U.S.’ first medical facility for IDUs opened its doors in November. Positive Health Care (212.216.9500), run by New York City syringe-exchangers Positive Health Project, offers drug-using HIVers expert care free of antijunkie attitude.
