Crumbling of the AIDS-dissidents!

This unpublished chapter of Bad Science by Ben Goldacre finally shed light on

Matthias Rath's reign of terror on the AIDS epidemic in South Africa. Rath, Thabo Mbeki, the President of South Africa at the time, Health Minister, Manto Tshabalala-Msimang and others were part of the "AIDS-dissidents," who claimed that homeopathic methods (WITHOUT antiretroviral drugs) cured AIDS. Thanks to my facebook-friend Michael from Oz for forwarding this info to me, totally enlightening and horrific at the same time. Unfortunately this is a true story...
