America Has Teabagged Itself

November 4, 2010 By Shawn Decker

They say anything is possible in this country, and it just happened. A sexual act once thought impossible was performed on Tuesday when America successfully teabagged itself.

Earlier this week, Editor-in-Chief of Poz Magazine, Regan Hofmann, blogged about why the AIDS community should vote and care about Tuesday's election. It's worth the read, especially if it's bittersweet after the election's results. By the way, when you're done with it, could you pass the mouthwash please?

Thanks.

Positively Yours,
Shawn
