What Is Your Organization Doing for World AIDS Day?

POZ wants to help get the word out about your #WAD2021 events.

October 25, 2021 By POZ Staff

Here at POZ we know COVID-19 continues to wreak havoc on fundraising efforts across the country. In-person events are tough to hold safely and virtual events are a challenge to get noticed. POZ is here to help.

Our events page is free to use for all our nonprofit partners throughout the year but it is even more important during the peak period around World AIDS Day. We've heard from our partners that this is a popular time to hold fundraisers that help put a big dent in annual budgets. This is also when the world is paying just a little more attention to HIV/AIDS thanks to more mainstream attention than HIV/AIDS usually gets the rest of the year.

It also happens to be one of the busiest times on POZ.com and all our social media sites so let us help get the word out about your event by submitting it for free here. We've made it easy to tell the world about your World AIDS Day events. Click on the words submit event in the top right corner of our calendar pages and POZ will help promote these events on our home pages and share them with our extended social media networks on Facebook, Twitter, Instagram and more. Let POZ help get the word out today!

POZ also offers these other free services to our partners serving the HIV community:

- Free bulk magazine subscriptions for POZ, Real Health, Hep, Tu Salud and Cancer Health
- Free POZ Posters in English and Spanish
- Free job page postings
- Free remnant banner space to POZ.com visitors in the area you serve (to the state level)
- Free RSS feeds easily embedded on your site to bring POZ's headlines straight to your clients
