800%

January 1, 2003 By Tim Murphy

That’s how many more times decreased libido, erectile dysfunction and impaired ejaculation were had by Spanish HIVers on HAART compared to those not on the cocktail—after other libido killers like low testosterone were factored out. Moral? Clearly, stress and SEX of being on HIV meds can complicate your SEX, but explore all options with Doc and Darling before letting l’amour trounce your treatment.
