**Korrin Krause**, a 16-year-old bagger fired by a Wisconsin IGA when the grocery store learned she had HIV, won a \$90,000 settlement...In February, **Anthony Fauci**, MD, 16-year head of federal AIDS research, was notably not named by Bush as director of the National Institutes of Health. Fauci's refusal to publicly oppose abortion rights or fetal-tissue research reportedly scuttled the nomination...Departing Surgeon General **David Satcher**, the Clinton appointee who clashed with Bush's abstinence-only agenda, accepted a position at Morehouse School of Medicine, where he will focus on people of color...The Elizabeth Glaser Pediatric AIDS Foundation elected **David Kessler**, MD, Clinton's controversial FDA commish, as board chair...The Spokane AIDS Network's ED, **Anne Stuyvesant**, stepped down, saying, "I'm not burned out, just a little singed."
