Prosper, and Live Long

Free your mind and the rest...

January 1, 1996

The main difference between a list of immune-enhancing behaviors and a list of common psychological characteristicsof long-term AIDS survivors is the title you put on it. The following list is condensed from charts by George F. Solomon, M.D., of the University of California Los Angeles, and Jeffrey M. Leiphart, Ph.D., clinical directorof the San Diego Lesbian and Gay Men’s Community Center.
