Think Kink

Blessed are the feet lickers and water-sporters—for they shall avoid the HIV risks that plague more “mainstream” techniques.

Four for starters:

Foot Fun
Join the more than 68 million people worldwide who say they happily insert foot in mouth.

Manual Labor
Stimulating anal or vaginal areas with fingers or fist ain’t risky if you don’t swap fluids. Wear a glove for protection.

Accessorize
Dildos make great bedroom additions. Use a new condom each time you trade.

Golden showers
Pee won’t give HIV. But make sure your partner is free of other STDs before getting hosed.
