

AIDS Is Everyday / September

September 30, 2022

AIDS is an everyday experience. The dates on this calendar all relate to the AIDS crisis. Some are globally known; others are drawn from personal experiences.

This online calendar is produced in partnership with [Visual AIDS](#) and is an extension of the exhibition “[EVERYDAY](#),” which was curated by Jean Carlomusto, Alexandra Juhasz and Hugh Ryan in 2016. The exhibition and accompanying print calendar explored the AIDS crisis—historically and currently—through the lens of art and ephemera that examines and evidences daily experiences and practices in response to HIV/AIDS. Artists featured in the “EVERYDAY” exhibition were invited to submit as many dates to the calendar as they desired.

We invite you to reflect upon these dates, and this artwork, in dialogue with one another. We also encourage you to submit dates of your own by clicking [here](#). Submissions may include the date of your diagnosis, the date of the loss of a loved one to AIDS-related illness or a significant milestone in your life with HIV/AIDS.

New submissions will be continually added to the calendar because AIDS is not over.

About the Artwork

Randy "freedom clay" Rogers, We Are All the Face of HIV/AIDS, 2012, Acrylic on canvas

In the midst of the global pandemic of HIV/AIDS, I was proud to see community based participatory research done in Durham, NC that methodically brought young Black adults (18-30), community members and social scientists together to have a real conversation about ways to decrease HIV infection via increasing awareness, examining reception and potential engagement in HIV biomedical research in this area of the country. Our attitude about HIV and the people who are disproportionately infected plays a significant role in HIV prevalence and incidence around the world. We are all the face of HIV and together, we can change the “face” and the “state” of HIV.

—Randy “freedom clay” Rogers

Founded in 1988, [Visual AIDS](#) is the only contemporary arts organization fully committed to raising AIDS awareness and creating dialogue around HIV issues today, by producing and presenting visual art projects, exhibitions, public forums and publications—while assisting artists living with HIV/AIDS. Visual AIDS is committed to preserving and honoring the work of artists with HIV/AIDS and the artistic contributions of the AIDS movement.
