

Everyday – April/May 2018

Here are some important dates in AIDS history.

April 2, 2018 By Jennifer Morton

AIDS is an everyday experience. These dates represent milestones in the AIDS epidemic. Some dates are known globally; others commemorate individual experiences. AIDS Is Everyday is an ongoing art project produced in conjunction with Visual AIDS to help break down the silence, shame and stigma surrounding HIV.

Add a date about your history with HIV to our online calendar at poz.com/AIDSIsEveryday.

APRIL

1 - President Ronald Reagan delivers his first “major speech” on AIDS. (1987)

7 - The Centers for Disease Control and Prevention and the White House launch “Act Against AIDS,” a multiyear, multifaceted initiative designed to reduce HIV incidence in the United States. (2009)
