

HIV Vaccine Awareness Day 2013

May 16, 2013

Saturday, May 18, is HIV Vaccine Awareness Day, an annual observance in recognition of the advocates and researchers who are working together to find a safe and effective HIV vaccine. The day also is a time to educate the public about promising HIV prevention research, including vaginal and rectal microbicides and pre-exposure prophylaxis (PrEP). Related events are being held nationwide.
