

Life is better with HIV, say 49% of positive folks

November 1, 1999

An August *Annals of Internal Medicine* survey that recruited people with HIV from the University of Cincinnati Medical Center found that another 18% say life is about the same and 29% say it's been worse since testing positive.

Are they all wet? Tell us if things are rosy or reeking by writing: Planet Editor, POZ, 349 W. 12th St., New York, NY 10014.
