

Blog Action Day, The Need For Clean Water

October 15, 2010 By [Shawn Decker](#)

I'm not sure how I found out about this, but somehow the internet and it's vast tentacles led me to Blog Action Day, an initiative that brings together bloggers and raises awareness about various topics. When I saw that today's Blog Action Day is about the need for clean drinking water, I immediately signed up.

Change.org|Start [Petition](#)

Not having access to clean drinking water makes it so much more difficult for people who are living with HIV to combat the effects of the virus. It also makes adherence to medication more difficult, due to the increased risk of diarrhea. So if you could join me in signing this petition- a small act- I'm sure my positoid brothers and sisters who don't have it as good as I do would be very thankful.

Positively Yours,
Shawn
