facebookPLUS...???

October 5, 2008 By David Capogna

Introducing HIVPlusMen.com Yes, another “social networking” site, but just for positive guys. Could be good (I could find my knight in shining armor,) or possibly to exclusive and limiting (just used for bare-backing fetishes—only kidding) ! Try it out, join for free, and YOU DECIDE!!!

A quote from the developer, also a member of Strength in Numbers New York (SINNYC): "Many are using [other dating and networking sites.] Maybe this is a good time to ’re-invent’ yourself?" Madonna moved aside! I’m patiently waitng for the HIVPlusMen mobile version, because I’m a crackberry addict.

Sharing the latest breaking news and developments for the gay male audience?lol XOXO
