

Gaydar supports iStayHealthy

January 18, 2012 By [iStayHealthy](#)

Gaydar, the premier gay and lesbian dating web-site will support iStayHealthy. I signed the deal with Gaydar in London yesterday. Gaydar will create a community support page for iStayHealthy and promote the app in the UK.

Meaning, that iStayHealthy now got 2 main supporters in the US (POZ) and UK (Gaydar).

In the meantime: there will be a minor upgrade to iStayHealthy for the iPhone. I just noticed that there is a problem when you enter the phone number for the Clinic entry. Somehow the keyboard type doesn't return the phone number value. I will post this to iTunes within the next few days.
