Gwenn Gets Tested For HIV

June 27, 2014 By Shawn Decker

Today is National HIV Testing Day. It’s so important to know your status. Last year, my partner and I made a video to show just how easy it is to get tested. Click here to find a local resource in your area, or consider an over-the-counter at home testing kit like OraQuick, which you can order discreetly on Amazon.com.

Positively Yours,
Shawn
