

# Hemolog now Available for iPhone

January 11, 2011 By [Shawn Decker](#)

---

For anyone out there with a bleeding disorder and an iPhone, there's a great new app (\$1.99) that helps you log your bleeds and infusions and sends that information to your doctor. It's called "Hemolog", and it was created by Michael Schultz. It's now available on the iPhone Apple store, click to learn more.

Positively Yours,  
Shawn
