

# HIV/AIDS and Aging in New York State

Learn more about HIV/AIDS and aging in New York State on National HIV/AIDS and Aging Awareness Day 2019

September 18, 2019 By [ETE Dashboard](#)

---

Today, September 18, is National HIV/AIDS and Aging Awareness Day, an opportunity to raise awareness and learn more about the challenges faced by this population with regard to HIV prevention, testing, care and treatment.

View the ETE Dashboard's infographic on HIV/AIDS and Aging in New York State to learn some basics about this population in New York. For more information about [HIV testing](#), [PrEP use](#), and care continuum outcomes and trends among older adults who are [living with HIV/AIDS](#) and those [newly diagnosed](#), explore our data visualizations and filter results using the age group menu option.

The [Ending the Epidemic \(ETE\) Dashboard](#) was designed and developed by the [Institute for Implementation Science in Population Health](#) at the CUNY Graduate School of Public Health & Health Policy of the City University of New York. The purpose of the ETE Dashboard is to measure, track and disseminate actionable information on progress towards achieving New York State's Ending the Epidemic Initiative's goals to all interested stakeholders. The ETE Dashboard project is funded by the New York State Department of Health AIDS Institute.
