And the 2008 Banana Peel Award Goes to...

January 1, 2009 By David Weiss

After a long night out abusing my aging body at the local New Year's Eve shindig I was thinking about how I'd begin my blog for 2009 when I read the following on Digg.com, which linked to a video on CNN.com. It is therefor with tongue firmly held in cheek (and in admittedly questionable taste) that I've reposted this one, which is definitely hard to beat:

"A naked intruder, Michael Dick, was scared away by the 88 year-old woman whose home he invaded. The woman yanked Dick's testicles to fight him off".

Happy New Year!
