

More Than a Feeling

November 19, 2012 By [Oriol R. Gutierrez Jr.](#)

The [December 2012](#) issue of POZ magazine is online.

Here's an excerpt from my editor's letter:

As we mark another World AIDS Day, it will undoubtedly take teamwork to end the pandemic. Above all else, however, it will take a cure and effective prevention, as well as the resources to implement them.

We spent a lot of time this year at POZ telling you about the cure, explaining why now more than ever we're closer to it than you might think. It felt fitting that we close out the year by showing you how close. We believe the cure is--to borrow a phrase from the rock group Boston--"more than a feeling" (a new take on that tune, for sure).

The [2012 POZ 100](#) list honors people helping to speed

up the end of the pandemic. No list is ever complete, but these researchers, clinicians, advocates, politicians and celebrities--including Sir Elton--represent the countless people worldwide working on a cure and biomedical prevention, as well as the advocacy to make them accessible and to overcome HIV stigma and discrimination.
