

My Pet Memoir

July 13, 2006 By [Shawn Decker](#)

MY PET VIRUS. That's the title of my memoir, due out in a couple of months. It's the culmination of thirty years of living? including over 20 with HIV? sharpened by about four years of writing with plenty of slack time in between.

Don't worry weary reader, I'm not going to be pimping my book out here. But if you're on MySpace, check out [my site for details](#), if interested. The best way to describe the content is Ryan White with a boner. So if you like funny memoirs about living with a potentially deadly illness, pick up a copy and give it a read in September.
