POZ Magazine’s 15 Year Anniversary

May 8, 2009 By Shawn Decker

Poz Magazine’s 15th Anniversary issue is out - read it now!

I learn something new everytime I read this magazine, and that’s been the case since my doctor sent me my first issue back in 1996, when I learned that the vast, diverse experiences of people living with HIV were being shared. Not as a soundbite about suffering, but complex- real - lives.

Reading Poz cemented my decision at age 20 to refuse to live a secret life with HIV. Thanks for Poz, for showing positoids like me that, yes, a brighter future is in my hands.

Positively Yours,
Shawn
