RLT Collection! Sophie Collection!

July 30, 2014 By Rae Lewis-Thornton

Sophie Baby Bracelet!

I designed the Sophie Collection in memory of my Poodle Sophie who lost her battle with Liver Cancer July 1, 2014. Sophie was full of life and made a imprint on the hearts of everyone she

encountered.

Sophie being diagnosed with cancer was the furthest thing from my mind. Her taking a turn for the worst within 5 days of diagnoses was earth shattering. Making this collection was the first thing that I was able to do when I finally crawled out of bed four days after she passed. Making this collection for my bracelet line RLT Collection helped me to get back to work and press through the pain of my lost.

Green is the color for Liver Cancer. The Sophie Baby Bracelet is the main focus of the collection with additional bracelets in the color green for that perfect stack. Shop HERE for Sophie Collection!
