September 7, 2006 By [Shawn Decker](#)

In the world of Hollywood things aren't always as they appear. Much was made of this week's unveiling of Suri Cruise on the cover of Vanity Fair, but I have obtained the unaltered photo from the session that day and, in a world exclusive, I am posting it here.

Shortly after reading Shawn's book, Tom Cruise denounced scientology, declaring himself a "negatoid" instead. More details to come!
