Is New York State Progressing Towards Ending the AIDS Epidemic by the End of 2020?

We capture key population level metrics and annual targets to end the AIDS epidemic in New York

July 1, 2018 By ETE Dashboard

As keeping with our mission to track and disseminate actionable information on progress towards ending the AIDS epidemic in New York, the ETE Dashboard features key population-level metrics and annual targets determined by the New York State Department of Health AIDS Institute.

Visit the ETE Dashboard Metrics page to view trends of actual recent data and annual targets until 2020 for all nine of New York's official ETE metrics.

Actual values based on 2017 NYS DOH HIV surveillance data

The Ending the Epidemic (ETE) Dashboard was designed and developed by the Institute for Implementation Science in Population Health at the CUNY Graduate School of Public Health & Health Policy of the City University of New York. The purpose of the ETE Dashboard is to measure, track and disseminate actionable information on progress towards achieving New York State's Ending the Epidemic Initiative's goals to all interested stakeholders.The ETE Dashboard project is funded by the New York State Department of Health AIDS Institute.
