VLOG: What People Are Saying About AIDS on Twitter

January 8, 2013 By Shawn Decker

It’s our first new video of 2013! Going to be doing one a week, posting them on Tuesdays. For this one, we went onto Twitter and clicked on the topic of AIDS, which is “#AIDS” in Twitter-speak. Came across some real gems, let me tell ya... well, I do, in the video below.

Thanks for watching and keeping up with us, and I hope that the new year is off to a great start for you!

Positively Yours,
Shawn
