

Well Beyond HIV Coming to New York

November 5, 2015 By [POZ Staff](#)

 To acknowledge and raise awareness of the new reality that more than half of all people living with HIV in the United States are [older than 50](#), Walgreens teamed up with [The Graying of AIDS project](#) to launch the [Well Beyond HIV program](#) to inspire dialogue, eradicate stigmas and amplify the voices, faces and stories of those over 50 living with HIV.

As part of the program, a pop-up art installation that features the gripping portraits and testimonials of HIV positive men and women over the age of 50 has been making its way across the country. POZ has joined its New York City debut to celebrate our [sixth annual POZ 100 list](#) that will honor long-term survivors--inspirational and courageous individuals diagnosed with HIV in 1995 or earlier.

The exhibition will be on display at Rogue Space Chelsea between 11 a.m. and 6 p.m. on Friday, November 20 and Saturday, November 21. Look for a special publication from POZ highlighting all six years of the POZ 100 only available at the gallery. Hope to see you there.
